Selectmen's Report

To The Town

Again the town meeting will fall on a late date in 1962, March 13th, giving candidates for town and school district offices until 6:00 p. m., Monday, March 5th to file their intentions with the town clerk, John Whitcomb, and the school district clerk, Mrs. Marie Rising.

As there is an element of uncertainty regarding the completion date of the new high school addition, it seemed best to schedule the town and school meetings in the old town hall as usual. Should the meeting place be changed notices will be posted to that effect with the warrants. Present plans call for converting the Andover grade school rooms to a town office and new quarters for the Andover library.

As of January 1st the town's surplus of assets over liabilities stands at $3,506.07, a reduction of $12,557.48 from the high figure of $16,063.55 one year ago and the lowest since 1945. Of this reduction $5000 was appropriated toward the purchase of the new grader and another $2,500 for the new road to the beach at Highland Lake, by the 1961 town meeting. The outstanding note on the grader automatically accounts for another $5000, leaving a net deficit of $57.48 in the year's operations. In other words, accounts about broke even in 1961.

The new Austin-Western Model 100 Pacer grader was purchased from Chadwick-BaRoss Inc. in Concord and put in operation during the summer. With lower fuel costs for diesel operation this should be a good investment over the years.

Crews from the Boston & Maine worked all summer on the new stretch of highway along the 'stream' at Highland Lake and by late fall it was completed, accepted by the town, and the railroad reimbursed according to contract. The rock-ballast base should hold this road against any erosion from the lake side. The beach and lower village railroad crossings are now closed as per agreement.

Regarding the 1962 tax rate, present indications are that a slight increase may be necessary, caused not entirely by a few recommended increases in town appropriations but in part from smaller revenues for other sources than taxes. Returns from the railroad tax are diminishing and may be almost nil in 1962. The town has no more tax title property to sell to help reduce the budget, and this year the town

received over $700 in advance 1962 motor vehicle registrations in 1961, which will cut that income correspondingly below the amount receved in 1961.

Last year. in setting up the tax rate for 1961, your selectmen pared the town budget to the lowest possible figure in order to soften the impact of the school building program on the taxpayers. It can be pared no further, and a few increases in appropriations will be recommended this year.

The new article in the warrant asking $1,000 for insurance payments is primarily a bookkeeping change, designed to group all such payments under one heading. Without this we would recommend increases in the fire department and highway general expense appropriations, which have proved for several years to be insufficient.

Action taken regarding the future of the town hall will have some bearing on the 1962 tax rate, but until this is definitely determined and the change-over of offices and library is made we cannot with any accuracy predict what the added cost or savings will be. With three elections falling this year we have added $500 for town government.

The big question (Article 3), "What to do now with the old town hall?"

We must call your attention to the need for new shingles on the old covered bridge at Cilleyville, if it is to be preserved as an attraction for present and future generations. One side in particular is bad. Wood shingles come high today and the cost may reach $600. It is possible that some outside help may be obtained. We have included $500 in the budget.

As stated in a preceding paragraph the town has no more tax title property to offer for sale at this time. Last spring the Fellows & Son woodlot on Tucker Mt. was sold to Walter W. Dwyer Jr. for $800, and the money used to reduce the 1961 budget. Later on the small strip of John Supernor land near East Andover was sold to Richard Marvin for $40. When cleared of brush it will improve the attractiveness of a new house nearly completed across the highway. The Barnard cottage at the Ragged Mt. Fish & Game Club was sold by the Federal Court to John Ellsworth, but no return of delinquent taxes has yet been received by the town.

All that now remain are three small tracts totaling less than four acres, and nothing was acquired in 1961.

An unusually large number of Andover Town Histories were sold

during 1961 at the reduced price of $2.00. The supply is now down to a few over one hundred copies, and unless there is objection on the part of the voters at town meeting the price hereafter will be raised to the original $5.00. As books go it is still a bargain at $5.00.

HIGHWAYS AND BRIDGES

During 1961, in addition to maintenance, work was done to improve many of our town roads.

Flaghole Road was widened and graveled from the top of the big hill to the Franklin City line.

Kearsarge Mt. Road was widened with several new culverts.

Shaw hill corner was improved and widened.

The so-called Calvin Currier road also widened and graveled.

The widening of Taunton Hill Road from the schoolhouse to the Ragged Mt. Camp begun but not yet completed.

Road to Elkins Hill at Cilleyville widened and gravelled.

Perhaps the greatest improvement of all is the new hard surface road from the power plant houses over Haley Hill to the Flaghole Road and on to Route 11 at Cemetery Corner, finished last year with T. R. A. funds. This is well drained and should eliminate the many expensive washouts of former years.

The 1961 Tax Dollar

Where Our Money Goes

A breakdown of the 1961 tax dollar, showing the percentage spent for each of the purposes listed, with the corresponding figures for 1960.

	1961	1960
Andover schools (appropriation for the school year 1961-1962)	62.29%	60.11%
All highway purposes	22.94%	20.22%
Merrimack County tax	4.22%	6.47%
Town government, including town hall	3.46%	5.27%
Fire protection, both departments	2.08%	2.31%
Relief of poor and old age assistance	1.55%	1.54%
Health department, including dump	1.26%	1.33%
Street lights	.65%	.86%
Cemeteries	.41%	.64%
Andover library	.39%	.54%
Recreation (bathing beach)	.23%	.19%
Social Security	.19%	.27%
Dartmouth-Lake Sunapee Region	.13%	.00
Police protection	.03%	.12%
Civil defense	.06%	.00
White pine blister rust eradication	.06%	.13%
	100.00%	100.00%

It is interesting to note that the amounts spent for the first ten major purposes listed in each of the last two years have accounted for 99 1/4% of the total, and in the same relative proportion.

The increased school budget and the special appropriations for the grader and the Highland Lake project raised the percentages for schools and highways to new heights in 1961.

Selectmen of Andover

IN CASE OF FIRE

CALL YOUR NEAREST FIRE DEPARTMENT

Andover (Citizens' Fire Co.)	**REpublic 5-2200**
East Andover (East Andover Vols.)	**REpublic 5-2900**

PUTTING OUT fires is THEIR BUSINESS

PREVENTING fires is YOUR BUSINESS

Let the following simple rules be your guide in the dry seasons ahead. Set a good example YOURSELF. There is no better way of encouraging others to do likewise.

1. Before burning, secure a permit from your forest fire warden, Victor E. Phelps —the law requires it.
2. Be sure to properly supervise your burning — don't leave it.
3. Make certain your fire, camp or debris, is DEAD OUT before leaving it.
4. Don't throw down lighted matches, cigars and cigarettes or from moving vehicles — make sure they are out — use your ash tray.
5. Don't burn at home — use your town dump and save yourself much possible difficulty, both personal and financial.

Our only serious fire in 1961 destroyed the home of James Humphrey at Andover on Feb. 3rd. During the spring dry season both departments were plagued by a series of grass fires set by locomotives, for which the Boston & Maine paid the bills. The railroad now claims to have taken measures which will eliminate much of this nuisance in the future.

The Citizens' Fire Company now has a tank truck, thru the courtesy of the Prescott Oil Company, which is equipped with a Gorman-Rupp portable pump. A new and more efficient heating system has been installed in the East Andover fire station.

Support your fire companies, which are organized for the sole purpose of serving you and protecting your property.

Fire can be a good servant but a terrible master when out of control. Treat it with respect. Obey the rules — BE CAREFUL ALWAYS.

ANDOVER LIBRARY

When the Andover Schools move into their new building it is believed that the town officers and Andover Public Library are to be allowed the use of the Village Schoolhouse. From the standpoint of the library this will be a welcome move as it will provide larger quarters on the ground floor and nearer to the school.

In these fast moving times it is vital that the Andover Library modernize its book collections, especially in the reference and non-fiction departments, so that it can take its righftul place, next in importance to the school, in the education and amusement of its youth and adult patrons.

It is desirable that a plan of regular weekly visits by the school children be worked out with the school board and the principal. This will make it necessary for the library to be open additional hours.

It is not anticipated that there will be much expense involved in the moving, as it is hoped that a few pieces of furniture can be borrowed until other plans can be made.

In order to accomplish the above plans we are asking that this years appropriation be raised to $1,000.00.

Andover Public Health Nursing Association

This year Mrs. Evelyn Klotz, R. N., has again carried out the school nursing program and worked with Miss Nel Getchell, Public Health Nurse, in holding immunization clinics. At these Dr. Clark gave a total of 185 shots at Andover.

Our rummage sale was again a success, the proceeds to be used for needy cases, hot lunch program and medical supplies. We also plan to buy an eye testing machine for the nurse to use in her school examinations.

We wish to thank all who helped, and especially Mrs. Klotz for all her kindness.

School Board's Report

TO THE CITIZENS OF ANDOVER:

Teachers are the most important aspect of a good school system and down through the years Andover has had some excellent teachers. This year we had four of our personnel leave the system, three of them going to other areas and one - namely Mrs. Maude C. Prince - retired. We would like to express our appreciation, as well as the gratitude of the parents and townspeople, to Mrs. Prince for a job well done. Maude was a sincere, able, teacher and made many contributions to our children that will never be forgotten.

School costs still do and, apparently, will continue to take a large share of the tax dollar, but your School Board has tried to keep them as low as possible and still maintain a sound program. We are recommending some salary increases for our teachers this year, but we do not feel Andover can ever compete salary-wise with the larger towns and cities. We still do not know what it will cost us to operate the new unit, but we have tried to estimate these expenses as near as possible.

The bus contract for school transportation should go out for bids this year, so this item may be more or less than last year depending upon the bids that are submitted. We are recommending a total budget about $800 less than last year which we feel is necessary if we are to carry on a good educational program in Andover.

We are planning to turn the Andover Village School over to the town officials and as things now stand one room will be used for town officers and the other room for a library. It would appear that some action should be taken in regard to the East Andover School. We have already been asked if it was for sale.

Your School Board feels that the new addition will make a real contribution to education in Andover and we also hope and expect that the activities room will be used by the people of the community in many ways. The use of the hall by the townspeople will be very welcome, but, because of the large investment the town has in the building, the Board feels it will be necessary to draw up some very definite rules and regulations which any group using the building will be expected to follow. We are now in the process of drawing up a set of regulations that we feel are desirable.

The school lunch program has continued this year much as in pre-

vious years and the splendid cooperation of the school lunch supervisor and her assistants, as well as Mrs. Clara Kidder who has done the bookkeeping and assisted in many ways, is much appreciated. We have secured a new steam table and dishwasher machine from surplus commodities so we feel our new kitchen is well equipped so an efficient job can be performed and the students well served. With all the children in one building, we expect the school lunch program to expand and serve more of our young people.

We have had excellent cooperation, as always, from the Andover Nursing Committee. Health examinations for the odd grades were given by the Doctor assisted by the local nurse and all young people taking part in athletics have been examined by a doctor. A pre-school clinic was also held.

We would like to express our appreciation to the P. T. A., Andover High School Alumni and other organizations who have worked throughout the year to improve our school facilities. The P. T. A. assisted in the purchase of a television set as well as assisting in many other ways, and the Andover High School Alumni have had a fine Electric Score Board installed in the new gym. We would like to thank the teachers, parents and friends who have cooperated wholeheartedly to develop a good school system in Andover.

SCHOOL SUPERINTENDENT'S REPORT

To the School Board and Citizens of Andover:

It gives me great pleasure to make this report to you regarding your schools:

You will, I feel sure, be gratified to see all your school children housed in one building very soon now. This in itself is a great achievement, brought about by your labor and sacrifice, and is something of which you can be proud.

Now it will be possible to have a more compact and more efficient school system. Your children will have better conditions for living together during their daily school life and should have better opportunities for learning. They may participate more in school activities that are healthful and useful in developing well-rounded personalities.

There should be a better teaching staff also; a more cohesive group, with stronger feelings of unity, since they will be under one administrator. This will improve teacher morale and raise the level of teaching efficiency.

There will be improved school and community relations which will enrich and strengthen the school and the community.

Sometimes I think we take it for granted that schools are a necessity and grudgingly spend money to maintain them. We forget, or do not take the trouble to think, about what are the real purposes in having schools.

To me, a school has always meant more than a public building where children gather to be taught facts and make slight acquaintance with people and things of the past and present. I think of a school as a place, or rather, an institution where children may be developed into worthy young men and women. It should be a place where every individual child is recognized and every effort is made by teachers to train the individual — when training is possible — to be useful to himself and to his fellow man. The child's talents should be useful to himself and to his fellow man. The child's talents should be discovered — every child has some — and then developed. We should never narrowly limit the human potential of our children; we as teach-

ers know that we should make every effort to encourage the growth and enlargement of a child's potential abilities.

Good teachers do get this idea across to some of their pupils; more teachers need to get this idea themselves and then impart it to the children under their care. It should be woven as a strong fibre into the warp and woof of our educational process and serve to bind together the fabric of our school pattern of living into a thing of beauty and utility.

When teachers succeed in doing this they will make a far greater contribution to the teaching process and will immeasurably enrich the lives of their pupils.

I would like to express my sincere appreciation to the teachers of the Andover schools for their excellent work and for their fine cooperation. Also I want to thank my School Board for its understanding and assistance to me in the past year. I am grateful also to the community and to the building committee for its generous support and help in promoting the addition to the school building. Without all this help, my task would have been most difficult; with it, my work has been a pleasure.

Respectfully submitted,

WILLIAM B. HOUNSELL
Superintendent of Schools

School Warrant
